

It's Only Love

Benjamin Taylor CNMNE (ASCAP) / David Saw RAK Publishing LTD (PRS)

You know how to find me in the morning before it's begun
Cause you know that I'm always up before the sun, with my head just under the clouds

Oh, it's only love
Oh, it's only love
Oh, it's only love, love, love

You know how to hear me in the spotlight on top of my song
You know how I try and I know when I'm wrong. You can find that out on your own

Oh, it's only love
Oh, it's only love
Oh, it's only love, love, love

You said it right the day it started
Everything...Everything
Like it or not I know I want it
Everything...Everything

Cause you know how to find me when I'm dreaming next to the moon
Cause you remember me like I remember you, from the note right into the tune

Oh, it's only love
Oh, it's only love
Oh, it's only love, love, love

Oh, it's only love
Oh, it's only love
Oh, it's only love, love, love
