

## **Something For Nothing**

Benjamin Taylor CNMNE (ASCAP)

### **Something for nothing from you Something for nothing from you**

You make me feel so cool when I help you break the rules  
And I wonder if I draw the line would you will still be by my side?  
Because I'm wasting my song while you play me along  
And it's taken too long I want something for nothing from you  
Something for nothing from you

### **And I've been breaking my neck just to earn your respect While I'm holding my breath I want something for nothing from you Something for nothing from you**

If I help you win your fights, I know you'll stay with me tonight  
and there's nothing that I wouldn't do, there's nothing that I wouldn't do  
Pretty birdy get your own hands dirty I won't be your fool this time  
Man's crimes here for a long while now  
I been wasting my song while you play me along  
And it's taken too long I want something for nothing from you  
Something for nothing from you

### **And I've been breaking my neck just to earn your respect While I'm holding my breath I want something for nothing from you something for nothing from you**

I'd give you anything, that's all I wanna to do  
If I had nothing left then what could I expect from you?

Wasting my song while you play me along  
And it's taken too long I want something for nothing from you  
Something for nothing from you.

I've been breaking my neck just to earn your respect  
While I'm holding my breath I want something for nothing from you  
Something for nothing from you.

### **Something for nothing from you**
